

FALL 2014 WELCOME

Hello, my name is [Susan J. Schurman](#). I am the Dean of the University College Community (UCC), Professor and Dean of the School of Management and Labor Relations (SMLR), as well as chairperson of the Undergraduate Professional Schools' Academic Oversight Committee for the New Brunswick Campus.

I want to offer a heartfelt Rutgers welcome to our new adult and nontraditional students and welcome back our continuing on and off-campus students.

UCC is aware that adult and nontraditional students must meet various responsibilities at home and at work while making extra efforts to reach their academic goals. We also know the value of successfully completing a college degree, not just in financial terms, but also in terms of personal development and social change.

Our ongoing goal is to support adult and nontraditional students because we know that they face significant non-academic responsibilities that make their college years very different from the traditional college experience. Our first task is to reach nontraditional students to make sure that they are informed of important developments, events, resources, services, dates, and major and minor programs that are available evenings, weekends, and online. UCC also helps guide nontraditional students to vital web information to enhance their experience at Rutgers University in a more effective and efficient manner. In addition, we advocate for nontraditional students inside the larger Rutgers University community by recommending policies and programs to meet their specific needs.

In the spring, we hosted the UCC graduation dinner for adult/nontraditional students in the Class of 2014. Please visit our [website](#) for archived highlights beginning from this year's graduation dinner to past dinners.

This past spring and summer, we also participated in adult recruitment, orientations, transition programs, veteran outreach initiatives and advising visiting students from the [Continuous Education \(unit 80\)](#) to name a few. We are especially proud of our administrative contributions to the formation of three degree-completion programs designed specifically for adult, nontraditional students: the [School of Management and Labor Relations' Bachelor of Science \(BS\) degree in Labor & Employment Relations](#), and the [Edward J. Bloustein School of Planning and Public Policy's Bachelor of Science \(BS\) degree in Public Health, Bachelor of Science \(BS\) degree in Public Policy](#) and the recently announced BS in Health Administration to begin in 2015. Through our continued research, collaborations, and advocacy, we remain committed to developing and marketing [adult-friendly programs](#) to attract adult and nontraditional students. In fact, through our enhanced outreach via our Virtual Learning Community on [sakai](#), [myRutgers](#), UCC email lists, and direct mail, we are confident that we will identify more nontraditional students.

Our goal is to create a sense of community for those students who do not live on campus and who have significant responsibilities outside of academia.

Sincerely,

CAREER FAIRS

STUDY TIPS FOR NONTRADITIONAL STUDENTS

[Developing study skills](#) is a concern for working adults returning for a new semester. Experts say that people learn more by reflecting on what they are learning rather than by simply memorizing it. Try keeping an ongoing "reading journal" to record thoughts on the material and note questions it raises. When you go back to review your notes, you'll find new connections to current material and possibly new ways of looking at your subject. [Click for source.](#)

RECREATION CLASSES

A Rutgers diploma is an internationally recognized credential. We're extremely proud of the many alumni who are leaders in the arts, sciences, engineering, and humanities. Rutgers' 360,000 living alumni are an impressive worldwide community. As an alumnus, you'll also be eligible to use our Career Services office—even after you graduate!

In an effort to continue building this worldwide community, the University has launched a pilot program targeting former students who left Rutgers prior to earning their undergraduate degree. UCC NONTRADITIONAL STUDENT HIGHLIGHT

Omowunmi Adedeji

Omowunmi Adedeji, 25, started her academic career at Rutgers University in 2008 on the Newark campus. While taking a short leave of absence from Rutgers-Newark, Omowunmi visited the New Brunswick campus and was inspired by the tremendous academic and professional opportunities awarded to the students. It was at that time she decided to take advantage of these opportunities and surround herself with individuals who were passionate about teaching and learning. In fall 2011, Omowunmi re-enrolled to Rutgers University to study on the New Brunswick campus in the School of Environmental and Biological Sciences (SEBS) as a biological sciences major

As a result of transferring to the New Brunswick campus, Omowunmi has had to commute from her home in Essex County to class every day via public transportation. Although the commute has been challenging—especially during the winter and for early classes—Omowunmi says, "It has made me much more flexible and able to adapt to changes." In addition to commuting every day for school, Omowunmi also holds a part-time job on campus to help pay for her books and other student expenses.

Through joined efforts by the University College Community and the Mary I. Bunting program in reaching adults and women about scholarship opportunities on the New Brunswick campus, in May 2014, Omowunmi was awarded a scholarship from the Greater Wayne Area branch of the American Association of University Women (AAUW). The AAUW prides itself on empowering and advancing women through educational and professional opportunities. Scholarships, fellowships and grants are offered on a yearly basis through their online application process on the [AAUW website](#).

Omowunmi describes her experience at Rutgers as rewarding, satisfying, and challenging. She says, "It is a learning environment that provides all the tools for student success. I have been fortunate to have Professors, staff, and colleagues who care about me and have helped to develop me into the person I am." She also credits her family for providing her with a strong support system and always reminding her that hard work pays off in the end.

Omowunmi is currently a senior at Rutgers University and is enrolled in a program partnered with Rutgers' Robert Wood Johnson Medical School. This program will help to transition her into the medical school after she earns her Bachelor's degree in Biological Sciences. Her career at Rutgers has been guided by one of her favorite quotes from Norman Vincent Peale (1898 - 1993): *Believe in yourself! Have faith in your abilities! Without a humble but reasonable confidence in your own powers you cannot be successful or happy.*

America has fought two extremely unpopular wars, Vietnam and Iraq. Why does our country continue to get involved in wars that accomplish nothing, destroy the lives of thousands of young Americans, wreak havoc and death in the nations where they are fought, and ruin our economy?
